

HEROFLEX

(Semi-Rigid Flexible Aluminium Duct)

Heroflex aluminium metal duct is an all metal flexible duct that is constructed entirely without the use of adhesive. This Product provides an ideal solution to the problems inherent in most cloth type flexible duct. This can be used in conjunction with mechanical ventilation and air conditioning systems.

Features

- Strong - Highly Puncture resistant
- Light weight
- Easy Installation
- Save Energy
- Insulation not required
- Easy to Repair
- Corrosion Resistant
- Leak Proof
- Fewer ducts in the premises
- Reduce Noise

Technical Specifications :

Article Code	: ACMD-1
Diameter Range	: 50 - 600 mm
Material	: Aluminium
Construction	: 1 & 2 - Layer
Total Thickness	: 0.06 - 0.15 mm
Temperature Range	: -30°C to +250 C
Max. Air Velocity	: 30 m /Sec
Max. Working Pressure	: +10.000 Pa
Min. Bending Radius	: 1 X D
Standard Length	: 3 meters
Standard Colour	: Aluminium
